Running since 1984, the German Socio-Economic Panel (SOEP) is a wide-ranging representative longitudinal study of private households, located at the German Institute for Economic Research, DIW Berlin.

The aim of the SOEP Survey Papers Series is to thoroughly document the survey's data collection and data processing. The SOEP Survey Papers is comprised of the following series:

Series A – Survey Instruments (Erhebungsinstrumente)

Series B - Survey Reports (Methodenberichte)

Series C – Data Documentation (Datendokumentationen)

Series D - Variable Descriptions and Coding

Series E – SOEPmonitors

Series F – SOEP Newsletters

Series G – General Issues and Teaching Materials

The SOEP Survey Papers are available at http://www.diw.de/soepsurveypapers

Reading Aid

This representation of the questionnaire contains the same informations as the portal paneldata.org.

Here, in addition to the *question number*, *question text*, *interviewer instructions*, and *answer options*, you find printed in green the *file name* and the *variable name* with the *variable label*, which contains information from the question. If you see rows of green lines below the answer option, the questionnaire defines serveral variables or informations are stored in more than one data set.

The routing by filters is depicted in blue. Each variable is preceded by an identifier (which generally contains the question number, marked here with a yellow dotted line), which is given, if the variable is used in filters in a subsequent question. Such filters are usually shown (as gatekeepers) at the beginning of the question.

This reading aid does not cover a few exceptional cases: If the filter (as gatekeeper) only affects one of serveral variables for a question, the filter is printed in blue behind the variable. There you will also find a "go to" command in the form 2 @ Q73. Here, the questionnaire skips to question 73 if the variable results in value of 2.

Phrases that are not alreday translated in English are displayed in German and preceded by [de].

Intro The questions contains in this questionnaire are for all household members who were born in or before 1998.

Your participation is voluntary, but the scientific relevance of this study depends crucially on the participation of every member of every household.

We therefore cordially request that you either

-allow our staff member to interview you

or

-carefully fill out this questionnaire yourself.

The following question deals with your labor intensity. Labor intensity is usually defined in terms of piece work requirements or target agreements—for example, sales targets or quality targets. But even without any such requirements, it is still possible to measure how much you achieve on a regular working day.

Please answer on the following scale, where 100% means that your labor intensity has remained the same. If your labor intensity has declined, please use the scale on the left to express the percentage decline. If your labor intensity has increased, please use the scale on the right to express the percentage increase.

What about you? Has your labor intensity changed in comparison to last year?

Sometimes doctors suggest medical tests or treatments that patients have to pay for themselves because the services are not covered by their health insurance. Sometimes patients also request these "individual health services" (Individuelle Gesundheitsleistungen, orIGeL) Themselves. Such services may include ultrasounds, blood tests, glaucoma and cancer screenings, and many others. In the last year - that is - in 2015 - did you utilize any "individual health services"?
