

AGENDA

Webinar: A robust CBAM design to unlock climate-friendly industry investments at EU scale

The partners of the [Climate Friendly Materials Platform](#) are delighted to invite you to join us for a webinar, where we will be bringing together experts, industry representatives, and policymakers to discuss how the carbon border adjustment mechanism (CBAM) can play its part in the Fit for 55 (F55) package and unlock climate-friendly investments at EU scale.

With the webinar we would like to provide the space to discuss an alternative design option for the CBAM, often referred to as the excise option ([option 6 in the impact assessment by the EU Commission](#)) or climate contribution.

Date: Wednesday, January 26th, 2022

Time: 16.00-17.30 (CET)

Registration: https://us06web.zoom.us/webinar/register/WN_PSMT_OMoRaiK20KwMzVAkg

Agenda:
