SOEP-IS 2024 – Questionnaire for the SOEP Innovation Sample

SOEP-IS Group

Running since 1984, the German Socio-Economic Panel (SOEP) is a wide-ranging representative longitudinal study of private households, located at the German Institute for Economic Research, DIW Berlin.

The aim of the SOEP Survey Papers Series is to thoroughly document the survey's data collection and data processing. The SOEP Survey Papers is comprised of the following series:

Series A – Survey Instruments (Erhebungsinstrumente)
Series B – Survey Reports (Methodenberichte)
Series C – Data Documentation (Datendokumentationen)
Series D – Variable Descriptions and Coding
Series E – SOEPmonitors
Series F – SOEP Newsletters
Series G – General Issues and Teaching Materials

The SOEP Survey Papers are available at <http://www.diw.de/soepsurveypapers>

Reading Aid

This representation of the questionnaire contains the same information as the portal `paneldata.org`.

The diagram illustrates the structure of a questionnaire question. It shows two questions, Q72 and Q73, with their respective text, instructions, and answer options. Labels on the left point to specific elements: question number, question text, interviewer instruction, answer options, in blue: identifier for filter, in blue: filter with condition, and grey bar: open or numeric answer. A legend on the right explains the green text: dataset name, variable name, and variable label.

question number → Q72

question text → Now we would like to know something about you personally. Were you born in Germany?

interviewer instruction → This refers to Germany or the Federal Republic of Germany or the German Democratic Republic in the national borders at the time of your birth.

answer options → Yes (1), No (2), No answer (-1)

in blue: identifier for filter → Q72:lsta1 bio I0013 born in Germany

in blue: filter with condition → Q72:lsta1=2

grey bar: open or numeric answer → Q73:lsta2 bio I0016 Country Of Birth

in green:
dataset name
variable name
variable label

Here, in addition to the *question number*, *question text*, *interviewer instructions*, and *answer options*, you find printed in green the *file name* and the *variable name* with the *variable label*, which contains information from the question. If you see rows of green lines below the answer option, the questionnaire defines several variables or information is stored in more than one dataset.

The *routing by filters* is depicted in blue.

Each variable is preceded by an identifier, which usually contains the question number and which is used when the variable is used in filters in subsequent questions. Such filters are usually placed as input filters (gatekeepers) at the beginning of a question. An identifier that is referred to in the input filter of a subsequent question is marked yellow as an example.

This reading aid does not cover a few exceptional cases: If the filter (as gatekeeper) only affects one of several variables for a question, the filter is printed in blue behind the variable. There you will also find a "go to" command in the form 2 @ Q73. Here, the questionnaire skips to question 73 if answer 2 was given.

Phrases that are not already translated in English are displayed in German and preceded by [de].

Is the respondent the head of household or the person who answers the questions about the household? The questions on the household should be answered by the person who knows most about the concerns of the total household and the other household members. Important Note: The questions on the household have to be filled out once for each household. Without this question part all other questions would be useless for data analysis!

HH2 Household situation

(5;haushalt_ja=1)&(45;hhart=1)

50 The last household interview was conducted on [date of last interview]. Before completing this questionnaire for "Living in Germany", it is important to first find out whether anything has changed in your household situation since the last survey or if everything has remained the same. This question deals with household composition. Please tell us which of the following applies to your household.

Please give only one answer.

My household lives in the same home or apartment at the same address ...

... and no one has joined or left the household since then 1

... but since then at least one person has joined or left the household 2

My household lives in a new home or apartment at a new address ...

... after the household moved or after one or more participants in "Living in Germany" moved into the household 3

... after new household formation 4

395 We want to keep the interview as short as possible. For this reason, we would also like to include data that is currently or will be available about you at the Institute for Employment Research of the Federal Employment Agency in the analysis of the survey and possible further interviews. This includes, for example, information on your employment contracts and work positions or periods of unemployment.

We ensure at all times that we strictly comply with all data protection regulations.

We would like to ask you for your consent for us to join and analyse your data. Your consent is of course voluntary. You can revoke it at any time with effect for the future.

398 This research focuses on flexible retirement plans. In a flexible retirement plan, participants are free to determine at what age they retire, or whether to retire some of their work week, and continue to work for the other part. With this questionnaire, researchers from "Living in Germany" want to analyze whether people in Germany are interested in flexible retirement plans under a number of conditions such as the height of the pension during retirement. Your answers provide valuable information for this scientific research on the preferences for flexible retirement schemes.

399 For the best experience we strongly recommend doing this survey on a device with a large screen (such as a desktop, laptop or tablet with a large screen). That is, we do not recommend using a smartphone. If you do want to use a phone or tablet with a small screen, we advise you to turn your device to a horizontal position now as shown below.

408 People follow different employment paths. Some work full-time and then retire fully, some retire only partially, others do something else.

Below we show a timeline that intends to outline your employment path from age 55 and onwards. The line indicates eight age categories. Below each category is a drop-down menu which lists four work status choices. Please choose your past and expected future work status at each age category. For example, if you are 60 years old, please provide your actual work status before 60 and your planned work status from 60 years of age.

Please note:

Choose 'Full-time' for 35 or more hours of work per week. Choose 'Part-time' for less than 35 hours of work per week. Choose 'Fully retired' for full retirement. Choose 'Other' if unemployed, sick, on other leave, or homemaker.

If you had more than one work status during the two years of an age category, choose the one in which you spent most of the time.

When choosing a future work status, take account of what your opportunities will allow you to do. For example, if your employer prohibits part-time work, avoid choosing part-time from the list.

410 In the questions that follow we describe retirement plans of hypothetical people. Please assume as much as possible that these people... - work for an employer who fully cooperates with the described retirement plans - work in the same type of job and under similar work conditions as you (might) work or worked - have a level of job satisfaction much the same as you (might) have or had - have social and family lives and a health condition similar to yours The described retirement plans may not apply to your situation because your work status, work type, health status, or partner's situation are or were not suitable for these plans. Still, we would like you to evaluate each retirement plan based on your own preferences. The retirement plans are shown on a timeline. Here is an example, the retirement plan of [kan24_pre_plan_name1]:

411 [Show example table here]

Above the colored panes you see [kan24_pre_plan_name1]'s age over time.

The colored panes indicate [kan24_pre_plan_name1]'s work status at the indicated ages. Respectively: - the blue pane indicates that [kan24_pre_art] works full-time - the red pane indicates that [kan24_pre_art] is retired part-time and works part-time - the gray pane indicates that [kan24_pre_art] is fully retired

Below the colored panes we indicate, for the corresponding ages: - the hours per week that [kan24_pre_plan_name1] works - the work income per month [kan24_pre_art] earns - the pension income per month [kan24_pre_art] receives (including eventual state pension income)

Note: Assume that the period of full-time work (blue pane) starts before age 62, and the period of full-time retirement (gray pane) continues after age 72. Hence, in the example, [kan24_pre_plan_name1] also earns \$3000 before age 62, and receives a pension income of \$2700 after age 72.

Several terms are used. They are defined below. - 'Work income' means monthly income from work. - 'Pension income' means monthly income from Social Security and retirement plans (such as 401(k), IRA, pension plans, Keogh, SEP). - All incomes are after taxes and other deductions, and they are adjusted for future inflation.

413 Many employees retire fully after working full-time; the age they retire can differ. Other employees go into partial retirement, where they work part-time for several years before full retirement.

Below we describe the retirement plans of three employees. All employees are currently [61-1] years old, working 40 hours a week, and earning [kan24_pre_inci] a month. Their retirement plans differ in the following respects: - Age of retirement - Pension income (including eventual state pension income) - Type of retirement (partial or full retirement)

Please compare the plans presented below.

[kan24_pre_plan_name611] plans to retire at age [61]. [kan24_pre_art] pension income will be [kan24_pre_plan_lepm61*kan24_pre_inci] a month. This plan can be summarized as follows:

[Show respective table here]

[kan24_pre_plan_name612] plans to reduce [kan24_pre_art] hours to 20 hours a week and change to a different job from age [61] to [61+3]. In this job [kan24_pre_art] tasks will be less demanding but [kan24_pre_art] will earn less per hour. [kan24_pre_art] will earn [kan24_pre_wpr*kan24_pre_inci] a month, and receive a partial pension income of [kan24_pre_plan_lppm61*kan24_pre_inci] a month. While working part time, [kan24_pre_art] will continue to build pension benefits for full retirement. [kan24_pre_art] will retire fully at age [61+4]. [kan24_pre_art] pension income will be [kan24_pre_plan_lpapm614*kan24_pre_inci] a month. This plan can be summarized as follows:

[kan24_pre_plan_name612] plans to reduce [kan24_pre_art] hours to 20 hours a week and change to a different job from age [61] to [61+4]. 415 Next, you will see 3 people's retirement plans again, as in the previous question. However, the plans differ in terms of the retirement age and pension income in partial and full retirement. Please also compare the following pension plans.

416 Many employees retire fully after working full-time; the age they retire can differ. Other employees go into partial retirement, where they work part-time for several years before full retirement.

Below we describe the retirement plans of three employees. All employees are currently [63-1] years old, working 40 hours a week, and earning [kan24_pre_inci] a month. Their retirement plans differ in the following respects:

- Age of retirement - Pension income (including eventual state pension income) - Type of retirement (partial or full retirement)

Please compare the plans presented below.

[kan24_pre_plan_name631] plans to retire at age [63]. [kan24_pre_art] pension income will be [kan24_pre_plan_lepm63*kan24_pre_inci] a month. This plan can be summarized as follows:

423 An employee who participates in a partial retirement plan can often choose how many hours to work. This choice will have consequences for the retirement income.

Below we describe the retirement plans of three employees. All employees are currently [61-1] years old, working 40 hours a week, and earning [kan24_pre_inci] a month. They will stop working full-time at age [61], but continue working part-time for a period of [kan24_pre_ypr] years in partial retirement. During that time, they will earn work income and receive a partial retirement income every month. They will continue to build retirement benefits for full retirement.

The retirement plans of the three employees differ in the following respects: - Number of hours worked per week during partial retirement - Retirement income in partial and full retirement

Please compare the plans presented below.

[kan24_pre_hour_name1] plans to reduce [kan24_pre_art] hours to 12 hours a week, and change to a different job from age [61] to [61+3]. In this job [kan24_pre_art] tasks will be less demanding but [kan24_pre_art] will earn less per hour. [kan24_pre_art] will earn [kan24_pre_wprh1*kan24_pre_inci] a month, and receive a partial pension income of [kan24_pre_hour_lppm611*kan24_pre_inci] a month. While working part time, [kan24_pre_art] will continue to build pension benefits for full retirement. [kan24_pre_art] will retire fully at age [61+4]. [kan24_pre_art] pension income will be [kan24_pre_hour_lpapm6141*kan24_pre_inci] a month. This plan can be summarized as follows:

427 An employee who participates in a partial retirement plan can reduce work effort in one step, or in two steps.

Below we describe the retirement plans of two employees. Both employees are currently [61-1] years old, working 40 hours a week, and earning [kan24_pre_inci] a month. They will stop working full-time at age [61], but continue working part-time for a period of four years in partial retirement. During that time, they will earn work income and receive a partial retirement income every month. They will continue to build retirement benefits for full retirement.

The retirement plans of the two employees differ in the following respects: - Number of steps work effort is reduced during partial retirement - Work income in partial retirement - Retirement income in partial and full retirement

Please compare the plans presented below.

[kan24_pre_step_name1] plans to reduce [kan24_pre_art] hours to 20 hours a week, and change to a different job from age [61] to [61+3]. In this job [kan24_pre_art] tasks will be less demanding but [kan24_pre_art] will earn less per hour. [kan24_pre_art] will earn [kan24_pre_wpr*kan24_pre_inci] a month, and receive a partial pension income of [kan24_pre_step_lppm611*kan24_pre_inci] a month. While working part time, [kan24_pre_art] will continue to build pension benefits for full retirement. [kan24_pre_art] will retire fully at age [61+4]. 430 In the next questions we will present retirement plans. They are the same retirement plans you just evaluated in the preceding questions. However, now, in each question, you should evaluate what is the chance in percentage terms of choosing one of the retirement plans. The chance of each retirement plan should be a number between 0 and 100, and the chances given to the retirement plans should add up to 100. For example, if you give a 5% chance to one retirement plan, it means that there is almost no possibility that you will choose that retirement plan. On the other hand, if you give a 80% or over chance to a retirement plan, it means that almost surely you will choose it.

431 Many employees retire fully after working full-time; the age they retire can differ. Other employees go into partial retirement, where they work part-time for several years before full retirement.

435 An employee who participates in a partial retirement plan can often choose how many hours to work. This choice will have consequences for the retirement income.

Below we describe the retirement plans of three employees. All employees are currently [63-1] years old, working 40 hours a week, and earning [kan24_pre_inci] a month. They will stop working full-time at age [63], but continue working part-time for a period of [kan24_pre_ypr] years in partial retirement. During that time, they will earn work income and receive a partial retirement income every month. They will continue to build retirement benefits for full retirement.

The retirement plans of the three employees differ in the following respects: - Number of hours worked per week during partial retirement - Retirement income in partial and full retirement

437 An employee who participates in a partial retirement plan can reduce work effort in one step, or in two steps.

Below we describe the retirement plans of two employees. Both employees are currently [61-1] years old, working 40 hours a week, and earning [kan24_pre_inci] a month. They will stop working full-time at age [61], but continue working part-time for a period of four years in partial retirement. During that time, they will earn work income and receive a partial retirement income every month. They will continue to build retirement benefits for full retirement.

The retirement plans of the two employees differ in the following respects: - Number of steps work effort is reduced during partial retirement - Work income in partial retirement - Retirement income in partial and full retirement

Please compare the plans presented below.

[kan24_pre_step_name1] plans to reduce [kan24_pre_art] hours to 20 hours a week, and change to a different job from age [61] to [61+3]. In this job [kan24_pre_art] tasks will be less demanding but [kan24_pre_art] will earn less per hour. [kan24_pre_art] will earn [kan24_pre_wpr*kan24_pre_inci] a month, and receive a partial pension income of [kan24_pre_step_lppm611*kan24_pre_inci] a month. While working part time, [kan24_pre_art] will continue to build pension benefits for full retirement. [kan24_pre_art] will retire fully at age [61+4]. [kan24_pre_art] pension income will be [kan24_pre_step_lpapm6141*kan24_pre_inci] a month. This plan can be summarized as follows:

[kan24_pre_step_name1] plans to reduce [kan24_pre_art] hours to 20 hours a week, and continue in the same job from age [61] to [61+3]. [kan24_pre_art] will earn [kan24_pre_wpr*kan24_pre_inci] a month, and receive a partial pension income of [kan24_pre_step_lppm611*kan24_pre_inci] a month. 448 Where were you born? If there are other towns or cities with the same name, or if the town is very small, please state the nearest city.

Please write the name of the town in the search field. After typing at least three letters, matching entries will be displayed in the field below. If one of these names is correct, select it and then click on the gray arrow in the middle. Alternatively, you can double-click or tap on the town's name in the left list. The town's name you selected should then be displayed in the field on the right. If no suitable name is displayed in the list on the left, please accurately type in the name of the town and any additional information (e.g., "Frankfurt an der Oder", "Frankfurt am Main" or "Roßdorf bei Schmalkalden") in the search field. Your entry will then also be displayed as a town in the field below. You can then select this entry and press the gray arrow in the middle. Alternatively, you can also double-click or tap on the town's name in the list on the left. The town's name you entered should then appear in the right field. You will find a red circle next to the town's name in the in the right field. Click on it if you want to remove a town that you selected accidentally and your entry will be deleted.

525 The following questions deal with partnership and marriage or registered same-sex partnerships (eingetragene gleichgeschlechtliche Partnerschaft). All of these questions deal with your relationship, whether you are married or not. There are questions dealing with your current relationship and others dealing with past relationships. We will start with your current relationship and then ask you to look back on relationships you had before. In the case of past relationships, we are talking about relationships that lasted six months or longer.

Whenever referring to marriage, we are also referring to registered same-sex partnerships!
