## SOEP-Core – 2024: Individual (techn., with Reference to Variables)

SOEP Group

Running since 1984, the German Socio-Economic Panel study (SOEP) is a wide-ranging representative longitudinal study of private households, located at the German Institute for Economic Research, DIW Berlin.

The aim of the SOEP Survey Papers Series is to thoroughly document the survey's data collection and data processing. The SOEP Survey Papers is comprised of the following series:

Series A – Survey Instruments (Erhebungsinstrumente)

Series B – Survey Reports (Methodenberichte)

Series C – Data Documentation (Datendokumentationen)

Series D – Variable Descriptions and Coding

Series E – SOEPmonitors

Series F – SOEP Newsletters

Series G – General Issues and Teaching Materials

The SOEP Survey Papers are available at <http://www.diw.de/soepsurveyspapers>

2026

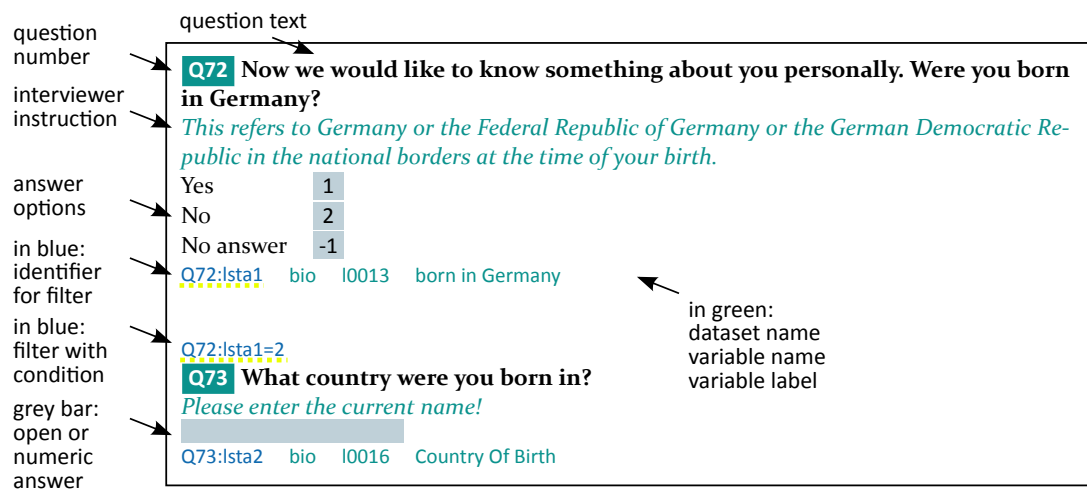

The variable names mentioned in this document belong to a collection of datasets, which is released with doi:10.5684/soep.core.v41o.

## Contents

B1 We'll start with some questions about your current living situation.	10
B5 Wealth	104
B6 Health and Illness	137
B7 In the following, we want to know about your attitudes and opinions.	152
B8 The next few questions are about the topics of family background, connections to country of origin, and thoughts about emigrating.	156
B9 In the following questions, we would like to learn more about your family situation.	172

## Reading Aid

This representation of the questionnaire contains the same information as the portal `paneldata.org`.

Here, in addition to the *question number*, *question text*, *interviewer instructions*, and *answer options*, you find printed in green the *file name* and the *variable name* with the *variable label*, which contains information from the question. If you see rows of green lines below the answer option, the questionnaire defines several variables or information is stored in more than one dataset.

The *routing by filters* is depicted in blue.

Each variable is preceded by an identifier, which usually contains the question number and which is used when the variable is used in filters in subsequent questions. Such filters are usually placed as input filters (gatekeepers) at the beginning of a question. An identifier that is referred to in the input filter of a subsequent question is marked yellow as an example.

This reading aid does not cover a few exceptional cases: If the filter (as gatekeeper) only affects one of several variables for a question, the filter is printed in blue behind the variable. There you will also find a "go to" command in the form 2 @ Q73. Here, the questionnaire skips to question 73 if answer 2 was given.

Phrases that are not already translated in English are displayed in German and preceded by [de].

**247** We want to keep the interview as short as possible. For this reason, we would also like to include data that is currently or will be available about you at the Institute for Employment Research of the Federal Employment Agency in the analysis of the survey and possible further interviews. This includes, for example, information on your employment contracts and work positions or periods of unemployment.

We ensure at all times that we strictly comply with all data protection regulations.

We would like to ask you for your consent for us to join and analyse your data. Your consent is of course voluntary. You can revoke it at any time with effect for the future.

**249\_1** Would you be willing to take part in the “Living in Germany” survey in a virtual meeting with your interviewer?

*One option is to do interviews online or in a virtual meeting between interviewer and respondent. Here, you would be able to decide for yourself whether you and your interviewer have the video turned on when you talk. In addition, you would always see the same questions that the interviewer is seeing on the screen. We would, of course, look for video conferencing software that meets the high standards of data protection that we guarantee.*
