The aim of the SOEP Survey Papers Series is to thoroughly document the survey's data collection and data processing. The SOEP Survey Papers is comprised of the following series:

Series A – Survey Instruments (Erhebungsinstrumente)

Series B – Survey Reports (Methodenberichte)

Series C – Data Documentation (Datendokumentationen)

Series D – Variable Descriptions and Coding

Series E – SOEPmonitors

Series F – SOEP Newsletters

Series G – General Issues and Teaching Materials

Reading Aid

This representation of the questionnaire contains the same information as the portal `paneldata.org`.

The diagram illustrates the structure of questionnaire questions and their associated variables. It shows two questions, Q72 and Q73, with their respective text, instructions, and answer options. Below each question, variables are defined with their identifiers, dataset names, and labels. A legend indicates that green text represents the dataset name, variable name, and variable label.

| Label | Content |
|----------------------------------|--|
| question number | Q72 |
| question text | Now we would like to know something about you personally. Were you born in Germany? |
| interviewer instruction | This refers to Germany or the Federal Republic of Germany or the German Democratic Republic in the national borders at the time of your birth. |
| answer options | Yes (1), No (2), No answer (-1) |
| in blue: identifier for filter | Q72:lsta1 |
| in blue: filter with condition | Q72:lsta1=2 |
| grey bar: open or numeric answer | [Grey bar] |
| in green: dataset name | bio |
| in green: variable name | I0013 |
| in green: variable label | born in Germany |
| question number | Q73 |
| question text | What country were you born in? |
| interviewer instruction | Please enter the current name! |
| in blue: identifier for filter | Q73:lsta2 |
| in blue: filter with condition | Q73:lsta2 @ Q73 |
| in green: dataset name | bio |
| in green: variable name | I0016 |
| in green: variable label | Country Of Birth |

Here, in addition to the *question number*, *question text*, *interviewer instructions*, and *answer options*, you find printed in green the *file name* and the *variable name* with the *variable label*, which contains information from the question. If you see rows of green lines below the answer option, the questionnaire defines several variables or information is stored in more than one dataset.

The *routing by filters* is depicted in blue.

Each variable is preceded by an identifier, which usually contains the question number and which is used when the variable is used in filters in subsequent questions. Such filters are usually placed as input filters (gatekeepers) at the beginning of a question. An identifier that is referred to in the input filter of a subsequent question is marked yellow as an example.

This reading aid does not cover a few exceptional cases: If the filter (as gatekeeper) only affects one of several variables for a question, the filter is printed in blue behind the variable. There you will also find a "go to" command in the form 2 @ Q73. Here, the questionnaire skips to question 73 if answer 2 was given.

Phrases that are not already translated in English are displayed in German and preceded by [de].
