SOEP-IS 2013 – Questionnaire for the SOEP Innovation Sample (Update soep.is.2016.1)

SOEP-IS Group
Running since 1984, the German Socio-Economic Panel study (SOEP) is a wide-ranging representative longitudinal study of private households, located at the German Institute for Economic Research, DIW Berlin.

The aim of the SOEP Survey Papers Series is to thoroughly document the survey’s data collection and data processing. The SOEP Survey Papers is comprised of the following series:
Series A – Survey Instruments (Erhebungsinstrumente)
Series B – Survey Reports (Methodenberichte)
Series C – Data Documentation (Datendokumentationen)
Series D – Variable Descriptions and Coding
Series E – SOEPmonitors
Series F – SOEP Newsletters
Series G – General Issues and Teaching Materials
The SOEP Survey Papers are available at http://www.diw.de/soepsurveypapers

Reading Aid

This representation of the questionnaire contains the same informations as the portal paneldata.org.

Here, in addition to the question number, question text, interviewer instructions, and answer options, you find printed in green the file name and the variable name with the variable label, which contains information from the question. If you see rows of green lines below the answer option, the questionnaire defines several variables or informations are stored in more than one data set.

The routing by filters is depicted in blue. Each variable is preceded by an identifier (which generally contains the question number, marked here with a yellow dotted line), which is given, if the variable is used in filters in a subsequent question. Such filters are usually shown (as gatekeepers) at the beginning of the question.

This reading aid does not cover a few exceptional cases: If the filter (as gatekeeper) only affects one of several variables for a question, the filter is printed in blue behind the variable. There you will also find a "go to" command in the form 2 @ Q73. Here, the questionnaire skips to question 73 if the variable results in value of 2.

Phrases that are not already translated in English are displayed in German and preceded by [de].

Q6 Is the respondent respectively the person who answers the questions about the household the head of the household?
The questions on the household should be answered by the person who knows most about the concerns of the total household and the other household members. Important Note: The questions on the household have to be filled out once for each household. Without this question part all other questions would be useless for data analysis!

In the following we talk about conspiracy theories. A conspiracy theory illustrates an event from history or present different from how it is normally illustrated. Often it is supposed, that the event is a result from intentional influence of single persons or secret groups. Conspiracy theories are part of everyday life - spread throughout discussions with other people, magazines and newspapers, television, internet and other media. Some people believe in them while others dislike them. In the end there is generally no possibility to decide whether a conspiracy theory is true or wrong. Both, people who believe in, and people who do not believe in, could be right or wrong. Following we are interested, how much you are believe in the subsequent conspiracy theories.

To what extent do personally believe in the following conspricay theories?

Please answer using the following scale, where 0% means „surely not“ and 100% means „sure“.

Many very important things happen in the world, which the public is never informed about.

Politicians usually do not tell us the true motives for their decisions.

Government agencies are keeping citizens under constant observation.

Events which superficially seem to lack a connection are often the result of secret activities.

There are secret organizations that greatly influence political decisions.

In the following we are interested in if, how often and how intensive you are physically active. In this sense we ask you on the one hand about physical activity in general and on the other hand we ask in particular about sports activity. What we mean by with physical activity is all activity, where your heart beats faster and your breathing is more rapid for some time. These aspects include not just sport, but also some household tasks in house or garden, the way to your working place or shopping by feet or bicycle, or physical activity regarding your job.

The following questions deal with marriage and partnership. All of the questions apply to this relationship, whether you are married to your partner or not. Subsequent questions deal with whether or not you are/were married to this person. There are questions about your current relationship as well as past relationships. We'll start by asking about your current relationship and then about permanent relationships that you had in the past. When we ask about your past relationships, “permanent relationships” means relationships lasting six months or more.

Q261 What is the officially used business language in your company?

Company as a whole means the corporate entity, which is defined as the contracting party in the employment contract. Regarding multi-branch companies we do not ask for the single branch, but for the superordinate corporate entity. Regarding multinational companies we ask for the superordinate German corporate entity, e.g. Deutsche Shell AG. Regarding civil service we ask for the respective administration, not civil service as a whole.

In the following, we present you five different job offers. All offers are full-time employments (40 hours per week), but some will provide the possibility to work fewer hours. The offers differ in further characteristics like career prospects. Accepting the offers will in most cases change your net household income. For all of these offers we will ask you to rate a) the attractiveness of the offer for you, b) the likelihood that you will to accept it, and c) the likelihood that you will move to the new location together with your partner. All offers are at other locations in Germany. Please suppose in any case that the regional locations provide you similar living conditions as your actual place of living (such as similar costs for housing and living, similar leisure-time options). We are only interested in your preferences for different working conditions!

I will soon commit the laptop to you. Then you can read and answer the case studies by yourself and at rest. The response to the first question works like this:
If you find an offer very unalluring, please mark the outermost left field.
If you find an offer very attractive, please mark the outermost right field.
You can weigh your answers with the fields in between.

Turn around the laptop to explain at the screen. Advise that the interviewee can correct opinions every time by going back. Offer the interviewee to help should the situation arise.

Q2:Sample=1,2 Einleitung_DRM We would like to know now, what you have done yesterday and how you felt thereby. You will be asked first when you got up. Then you are asked to reconstruct that day using this list. Please think of your day as a sequence of episodes. In general episodes take 15 minutes to 2 hours. A sign for the of an episode could be the change of the location, the end of an activity and the start of another activity or the change of involved persons. Regarding some episodes we will pose some additional questions.

Explanation of the scientific principal regarding the background of this module:
One of the goals of social science is to find out, which elements of life influence our life satisfaction most. Therefore scientists need evaluations of persons about how satisfied they are with their current life. This question we pose every year at the end of the survey "Leben in Deutschland" ("Life in Germany").
Sometimes however it is not sufficient, to ask Human in general, how satisfied they are. For this reason researchers started to interrogate persons for their feelings related to situations within the
day. You shall provide information how you feel in certain moments and not just in total. This procedure allows us to get a more detailed view about the life of a person. Thereby we want to examine how certain activities influence quality of life day by day.

**Q297 When did you get up yesterday?**

Please use the following format HH:MM. You can type in the time in this format or select the time.

Q297;q1drm_a idrm drm_a When did you get up yesterday?
