Reading Aid

This representation of the questionnaire contains the same informations as the portal `paneldata.org`.

The diagram shows a questionnaire entry with the following components and annotations:

- question number:** Q72
- question text:** Now we would like to know something about you personally. Were you born in Germany?
- interviewer instruction:** This refers to Germany or the Federal Republic of Germany or the German Democratic Republic in the national borders at the time of your birth.
- answer options:**
 - Yes (1)
 - No (2)
 - No answer (-1)
- in blue: identifier for filter:** Q72;lsta1
- in blue: filter with condition:** LSTA1=2
- in green: dataset name, variable name, variable label:** bio I0013 born in Germany
- grey bar: open or numeric answer:** Q73;lsta2 bio I0016 Country Of Birth

Here, in addition to the *question number*, *question text*, *interviewer instructions*, and *answer options*, you find printed in green the *file name* and the *variable name* with the *variable label*, which contains information from the question. If you see rows of green lines below the answer option, the questionnaire defines several variables or informations are stored in more than one data set.

The *routing by filters* is depicted in blue. Each variable is preceded by an identifier (which generally contains the question number, marked here with a yellow dotted line), which is given, if the variable is used in filters in a subsequent question. Such filters are usually shown (as gatekeepers) at the beginning of the question.

This reading aid does not cover a few exceptional cases: If the filter (as gatekeeper) only affects one of several variables for a question, the filter is printed in blue behind the variable. There you will also find a "go to" command in the form 2 @ Q73. Here, the questionnaire skips to question 73 if the variable results in value of 2.

Phrases that are not already translated in English are displayed in German and preceded by [de].

Q519 As already described in the brochure, we ask you to participate in this survey. Participation in this survey is voluntary. If you participate and you do not want to answer individual questions for personal reasons, you can also spontaneously reject the answer to the respective question. For example point to the option “not specified”. Your information will be kept strictly confidential. Names and addresses are separated from the information in the interview. More details can be found in the “data protection sheet”, which the interviewer hands over to you. Nobody can tell from the statistical results which concrete persons are behind the information. The survey is unrelated to your asylum procedure, so it can have no impact on it, not even retrospectively, once your asylum procedure has been completed.

B067 MORE-Modul – SwaF

Q525 There are many initiatives in Germany that want to make it easier for refugees to start here in this country. So-called tandem projects allow refugees to get in touch with locals. People can talk to each other, who often only talk about each other without knowing each other. Ideally, this creates a friendship, in any case, refugees get to know fellow citizens, who can help them in everyday life with help and advice.

What the tandem partners do together can be very different. Sometimes it's just about drinking tea and talking, sometimes exploring a city together or answering a government letter together. Above all, it is about making new contacts, learning from each other and understanding each other's culture.

Q526 Do you participate in time to one Tandemprogram?

Q527 Can you tell us what this tandem program means?

Yes (please say which ones)

No answer -1
 No 1

Q526;more1=2

Q528 We would now like to introduce you to one of these initiatives. The organization “Start with a Friend” brings together refugees and locals as described in Tandems. “Start with a Friend” meets each participant personally before a mediation. As a result, the organization gets to know the individual interested parties better and finds a suitable tandem partner on this basis. After mediation, “Start with a Friend” helps with questions and challenges and supports the tandems. In addition, every local team organizes events such as cooking together or attending concerts. As a rule, participants meet for about six months approximately once a week. As a participant in this survey, you have the opportunity to participate in “Start with a Friend”. If you are interested, we ask you to confirm your readiness to participate with your signature. Next we would make the registration on the Internet together. “Start with a Friend” will contact you and discuss everything else with you. By signing, you commit yourself to nothing, but you confirm that, when you participate in the tandem program, your survey data from LIFE IN GERMANY can be linked to the data that is generated as part of the tandem program. The link is made via an ID number. The data is evaluated anonymously. You can revoke your participation in the tandem program and your data link at any time. Further information can be found on the information sheet. Since the interest in the tandem project is so great, but the capacities are limited, unfortunately, not all who would like to participate, can actually get a place. Therefore, we have to give away the places at this point with the help of the computer.

Q526;more1=2
