## Reading Aid

This representation of the questionnaire contains the same informations as the portal `paneldata.org`.

The diagram shows a questionnaire entry for question Q72. On the left, labels with arrows point to specific parts of the entry:

- question number:** Q72
- question text:** Now we would like to know something about you personally. Were you born in Germany?
- interviewer instruction:** This refers to Germany or the Federal Republic of Germany or the German Democratic Republic in the national borders at the time of your birth.
- answer options:** Yes (1), No (2), No answer (-1)
- in blue: identifier for filter:** Q72;lsta1
- in blue: filter with condition:** LSTA1=2
- grey bar: open or numeric answer:** (indicated by a grey bar)

On the right, a legend explains the green text:

- in green:** dataset name (bio), variable name (I0013), variable label (born in Germany)

The entry also shows a routing instruction: `Q73;LSTA1=2` and the start of question Q73: "What country were you born in?" with a filter `Q73;lsta2 bio I0016 Country Of Birth`.

Here, in addition to the *question number*, *question text*, *interviewer instructions*, and *answer options*, you find printed in green the *file name* and the *variable name* with the *variable label*, which contains information from the question. If you see rows of green lines below the answer option, the questionnaire defines several variables or informations are stored in more than one data set.

The *routing by filters* is depicted in blue. Each variable is preceded by an identifier (which generally contains the question number, marked here with a yellow dotted line), which is given, if the variable is used in filters in a subsequent question. Such filters are usually shown (as gatekeepers) at the beginning of the question.

This reading aid does not cover a few exceptional cases: If the filter (as gatekeeper) only affects one of several variables for a question, the filter is printed in blue behind the variable. There you will also find a "go to" command in the form `2 @ Q73`. Here, the questionnaire skips to question 73 if the variable results in value of 2.

Phrases that are not already translated in English are displayed in German and preceded by [de].

**B051 Consent form / Record Linkage IEB****Q586** Consent to merge selected register data with your survey data from the LIVING IN GERMANY study!

Why do we need your signature? In order to be able to better describe the situation of immigrants and their children in Germany, scientists require extreme accurate information that can be used in statistical analyses. We are therefore asking for your consent to incorporate the data collated by the Institut für Arbeitsmarkt- und Berufsforschung (IAB) (Institute for Employment Research) in our evaluations. The IAB is the Research Institute of the Federal Agency for Employment in Nuremberg.

**Q587** What kind of information is involved? The additional information relates to your previous working life, in other words, details about previous periods of employment and unemployment.

Data protection is completely guaranteed. The Data Protection Act requires your consent to be able to merge these data with your survey data. All provisions under data protection law are observed, i.e. your anonymity is fully guaranteed. Giving your consent is of course voluntary. You can also withdraw it at any time.

## B052 MORE-Modul – SwaF

**Q590** There are many initiatives in Germany that want to make it easier for refugees to start here in this country. So-called tandem projects allow refugees to get in touch with locals. People can talk to each other, who often only talk about each other without knowing each other. Ideally, this creates a friendship, in any case, refugees get to know fellow citizens, who can help them in everyday life with help and advice.

What the tandem partners do together can be very different. Sometimes it's just about drinking tea and talking, sometimes exploring a city together or answering a government letter together. Above all, it is about making new contacts, learning from each other and understanding each other's culture.

**Q591** Do you participate in time to one Tandemprogram?

Yes	1
No	2
MORE module was not provided	3

**Q592** Can you tell us what this tandem program means?

Yes	1
No	2

[Yes] Please state:

**Q593** We would now like to introduce you to one of these initiatives. The organization “Start with a Friend” brings together refugees and locals as described in Tandems. “Start with a Friend” meets each participant personally before a mediation. As a result, the organization gets to know the individual prospective customers better and finds a suitable tandem partner on this basis. After the mediation “Start with a Friend” helps with questions and challenges and supports the tandems. In addition, every local team organizes events such as cooking together or attending concerts. As a rule, participants meet for about six months approximately once a week. As a participant in this survey, you have the opportunity to participate in “Start with a Friend”. If you are interested, we ask you to confirm your readiness to participate with your signature. Next we would make the registration on the Internet together. “Start with a Friend” will contact you and discuss everything else with you. By signing, you commit yourself to nothing, but you confirm that, when you participate in the tandem program, your survey data from LIFE IN GERMANY can be linked to the data that is generated as part of the tandem program. The link is made via an ID number. The data is evaluated anonymously. You can revoke your participation in the tandem program and your data linking permission at any time. Further information can be found in the information sheet. Since the interest in the tandem project is so great, but the capacities are limited, unfortunately, not all who would like to participate, can actually get a place. Therefore, we have to give away the places to participate with the help of the computer.

**Q594** Would you register for the tandem program “Start with a Friend” under these conditions?

Yes, I would like register for the tandem program	1
No, I don't like to participate	2

**Q595** You are one of those people to whom we can offer a place in “Start with a Friend”. Please confirm your participation interest with your signature.

**Q596** Unfortunately, the random selection has revealed that we can not offer you a place for the tandem program. We are sorry that it did not work for you.

**Q597** Hereby I confirm my participation interest in the initiative “Start with a Friend”. I agree that data collected as part of the “Start with a Friend” tandem program will be included in the evaluation and combined with my survey data from the study LEBEN IN DEUTSCHLAND and stored anonymously. The evaluation takes place without any relation to my person being possible. I have been informed that all data protection regulations are complied with. I have been informed that I can withdraw my consent at any time.

**Q598** Now click Next to open the login page of “Start with a Friend”. Enter the ID there and carry out the registration with the survey person. After logging in please close the browser.

**Q599** [for the interviewer]

Registration takes place	1
Target person refused to register	2
Registration was not possible due to technical problems	3
Registration was not possible for other reasons	4
[Registration was not possible for other reasons, and indeed]	

**Q601** Many thanks for taking part in this interview. To conclude the interview properly, the interviewer must now answer a few questions. These questions are designed to help us understand the information in the interview better. And we shall also use them to establish whether, in certain areas, we can do anything even better in future surveys.
