Reading Aid

This representation of the questionnaire contains the same informations as the portal paneldata.org.

Q72: Now we would like to know something about you personally. Were you born in Germany?
   This refers to Germany or the Federal Republic of Germany or the German Democratic Republic in the national borders at the time of your birth.
   Yes 1
   No 2
   No answer -1

Q72:LSTA1=2 Q72 What country were you born in?
   Please enter the current name!

Here, in addition to the question number, question text, interviewer instructions, and answer options, you find printed in green the file name and the variable name with the variable label, which contains information from the question. If you see rows of green lines below the answer option, the questionnaire defines several variables or informations are stored in more than one data set.

The routing by filters is depicted in blue. Each variable is preceded by an identifier (which generally contains the question number, marked here with a yellow dotted line), which is given, if the variable is used in filters in a subsequent question. Such filters are usually shown (as gatekeepers) at the beginning of the question.

This reading aid does not cover a few exceptional cases: If the filter (as gatekeeper) only affects one of several variables for a question, the filter is printed in blue behind the variable. There you will also find a “go to” command in the form 2 @ Q73. Here, the questionnaire skips to question 73 if the variable results in value of 2.

Phrases that are not already translated in English are displayed in German and preceded by [de].
**Intro** The questions contains in this questionnaire are for all household members who were born in or before 1999. Your participation is voluntary, but the scientific relevance of this study depends crucially on the participation of every member of every household. We therefore cordially request that you either
- allow our staff member to interview you
or
- carefully fill out this questionnaire yourself.

Imagine that you are unexpectedly given 10,000 euros. How would you use this money? How much would you save, how much to give, and how much to spend? You can split the amount or use it for one purpose only.

Save: ... euros
Donate: ... euros
Expend: ... euros

Are you generally a person who is willing to take risks or do you try to avoid taking risks?
Please tick a box on the scale, where the value 0 means not at all willing to take risks and the value 10 means very willing to take risks.

What would you say: How many close friends do you have?

How often do you ...
People can have many different qualities—some are listed below. You will probably find that some of these descriptions fit you completely and that some do not fit you at all. Others may fit to a certain extent.

Please answer on a scale from 1 to 7, where 1 means “does not describe me at all”, and 7 meaning “describes me perfectly”.
