Running since 1984, the German Socio-Economic Panel (SOEP) is a wide-ranging representative longitudinal study of private households, located at the German Institute for Economic Research, DIW Berlin.

The aim of the SOEP Survey Papers Series is to thoroughly document the survey's data collection and data processing.

The SOEP Survey Papers is comprised of the following series:

Series A – Survey Instruments (Erhebungsinstrumente)

Series B – Survey Reports (Methodenberichte)

Series C – Data Documentation (Datendokumentationen)

Series D – Variable Descriptions and Coding

Series E – SOEPmonitors

Series F – SOEP Newsletters

Series G – General Issues and Teaching Materials

The SOEP Survey Papers are available at <http://www.diw.de/soepsurveyspapers>

Reading Aid

This representation of the questionnaire contains the same informations as the portal paneldata.org.

question number → **Q72**

question text → **Now we would like to know something about you personally. Were you born in Germany?**

interviewer instruction → *This refers to Germany or the Federal Republic of Germany or the German Democratic Republic in the national borders at the time of your birth.*

answer options → Yes 1
No 2
No answer -1

in blue: identifier for filter → Q72:lsta1 bio I0013 born in Germany

in blue: filter with condition → Q72:lsta1=2

grey bar: open or numeric answer → [grey bar]

in green: dataset name variable name variable label → bio I0013 born in Germany

Q73 What country were you born in?
Please enter the current name!
Q73:lsta2 bio I0016 Country Of Birth

Here, in addition to the *question number*, *question text*, *interviewer instructions*, and *answer options*, you find printed in green the *file name* and the *variable name* with the *variable label*, which contains information from the question. If you see rows of green lines below the answer option, the questionnaire defines several variables or informations are stored in more than one data set.

The *routing by filters* is depicted in blue.

Each variable is preceded by an identifier, which usually contains the question number and which is used when the variable is used in filters in subsequent questions. Such filters are usually placed as input filters (gatekeepers) at the beginning of a question. An identifier that is referred to in the input filter of a subsequent question is marked yellow as an example.

This reading aid does not cover a few exceptional cases: If the filter (as gatekeeper) only affects one of several variables for a question, the filter is printed in blue behind the variable. There you will also find a "go to" command in the form 2 @ Q73. Here, the questionnaire skips to question 73 if answer 2 was given.

Phrases that are not already translated in English are displayed in German and preceded by [de].

Intro This questionnaire addresses household members born 1998 and are participating for the first time ever.

Your cooperation is voluntary. The scientific validity of this survey, however, depends on cooperation of every member of every household.

We cordially request you,

- to answer the questions for our Interviewer
- or to fill out the questionnaire by yourself accurately.
