SOEP-IS 2019 – Questionnaire for the SOEP Innovation Sample

SOEP-IS Group

Running since 1984, the German Socio-Economic Panel study (SOEP) is a wide-ranging representative longitudinal study of private households, located at the German Institute for Economic Research, DIW Berlin.

The aim of the SOEP Survey Papers Series is to thoroughly document the survey's data collection and data processing. The SOEP Survey Papers is comprised of the following series:

- Series A – Survey Instruments (Erhebungsinstrumente)
- Series B – Survey Reports (Methodenberichte)
- Series C – Data Documentation (Datendokumentationen)
- Series D – Variable Descriptions and Coding
- Series E – SOEPmonitors
- Series F – SOEP Newsletters
- Series G – General Issues and Teaching Materials

The SOEP Survey Papers are available at <http://www.diw.de/soepsurveyspapers>

Reading Aid

This representation of the questionnaire contains the same informations as the portal paneldata.org.

Here, in addition to the *question number*, *question text*, *interviewer instructions*, and *answer options*, you find printed in green the *file name* and the *variable name* with the *variable label*, which contains information from the question. If you see rows of green lines below the answer option, the questionnaire defines several variables or informations are stored in more than one data set.

The *routing by filters* is depicted in blue.

Each variable is preceded by an identifier, which usually contains the question number and which is used when the variable is used in filters in subsequent questions. Such filters are usually placed as input filters (gatekeepers) at the beginning of a question. An identifier that is referred to in the input filter of a subsequent question is marked yellow as an example.

This reading aid does not cover a few exceptional cases: If the filter (as gatekeeper) only affects one of several variables for a question, the filter is printed in blue behind the variable. There you will also find a "go to" command in the form 2 @ Q73. Here, the questionnaire skips to question 73 if answer 2 was given.

Phrases that are not already translated in English are displayed in German and preceded by [de].

UE2 Household questionnaire

UE3 Dwelling

Q007 Is the respondent the head of household or the person who answers the questions about the household?

[INT] The questions on the household should be answered by the person who knows most about the concerns of the total household and the other household members.

*If known, that person is identified with * in the Mein Kantar.*

Important Note: The questions on the household have to be filled out once for each household. Without this question part all other questions would be useless for data analysis!

Answer questions about the household (again)

Skip questions about the household

Q008 We'll start with questions about your household as a whole.

Q009 For the response of questions on the household it is important, whether there was any change of the housing situation or not.

The first question is about the household composition, hence whether the persons of your household are the same and as well in the same dwelling.

Please show list xxx!

What applies to your household?

Surveyed in the same home or apartment at the same address: with no other change, with the same person / same people

Interview in the same apartment under the same address but at least one person has joined or has left the household

Survey happens for the first time in this dwelling at this address after relocation of the household. The household already existed in the survey "Living in Germany".

Survey happens for the first time in this dwelling at this address after the new foundation of this household by moving in of at least one other participant of the survey "Living in Germany".

UE13 Innomodule Genes – Part 1

Q076 At the start of the survey, we would like to direct your attention to a special feature of this year's innovation survey. Together with the cover letter and the brochure on life in Germany - Innovation Sample you received a leaflet on the project "How the genes shape us". In the course of this project, we want to collect saliva samples from all household members in order to obtain information on the composition of genes.

INT: If there are infants or babies in the household: Please pay attention throughout the survey and during the extraction of the saliva sample in order to ensure that the materials are not within the reach of children. This is particularly true for babies who like to reach for everything they can touch.

Q077 Is the leaflet available?

Yes, leaflet is available	1
No, leaflet is not available	2
No answer	-1

Q077:igene02=2,-1

Q078 INT: Please give the target a leaflet “How the genes shape us” if it is not yet available in the household. If the target person doesn’t want to read the leaflet or doesn’t want to read it, that’s ok.

Q079 INT: Please present the information manual “How the genes shape us” to the target person. Of course, if the target person does not want to read the info manual, this is also ok. Please do not apply any pressure here.

Info manual handed over	1
Info manual not handed over	2

[Data protection sheet “How the genes shape us” not handed over because]	

Q081 INT: Please answer all questions of the target person about the module “Genes”. If necessary, you can also show the target person the laminated sheet “This is what gene information looks like”.

Q082 Are you interested in participating in the study and providing us with a saliva sample?

The binding consent form will only be obtained at the end of the interview.

Yes	1
No	2

No, because:

Q083 We would like to take saliva samples from all household members. If there are children, we need the consent of the legal guardians. Are there children in the household who are allowed to take part in the project?

As a rule, the biological parents, but also possible foster parents, are entitled to parental permission. A written consent for the participation of the children is only required at the end of the interview.

Yes	1
No, there are no children in the household	2
No, child/children shall not participate	3
[No, child/children shall not participate because]	

(Q082:igene06=1)|(Q083:igene07=1)

Q084 In order not to risk contamination of the saliva sample, we would like to ask [your child/children] to refrain from eating and drinking from now on. [Please make sure that the child/children do not eat or drink.] After completing the regular questionnaire, I will return to the submission of the saliva sample. It is only then when you will give your specific consent.

(Q082:igene06=1)|(Q083:igene07=1)

Q085 INT: Please select the separate questionnaire “Genes” after completing the personal questionnaire of all the interviewees present.

UE14 Innomodule Language III – Part 1

Q149:ife_dummy=1

Q150 Recently, numerous data leaks at tax law firms and banks have revealed various tax avoidance and tax evasion practices of wealthy individuals, politicians, football stars, and other celebrities. Based on these data leaks, scientific studies estimate that very wealthy households – that is, households with around 45 million euros of net assets – evade about 25% of their taxes.

Q2000:sample=1,2

Q151 Suppose there is a way to reduce your taxes by 10%. However, you find that you do not actually meet the requirements for this. However, you also know that there is no way for the tax office to check the conditions for tax reduction. Would you still take advantage of the possibility of tax reduction?

Please answer using the following scale: 1 means “Very unlikely” 5 means “Very likely”. You can downgrade your answers using the steps in between.

Q2000:sample=1,2

Q153 We are still interested in the subject of taxation. The state collects income taxes in order to cover expenditures on schools, public infrastructure, or social security. What would be a fair distribution of the tax burden in the opinion? For each of the following groups, please specify what percentage of their income the particular groups should pay in taxes. For example, if someone earns 10,000 euros and pays 1,000 euros in income tax, then the tax rate would be 10%.

Note: 0% means no tax to pay at all and 100% means that the entire income is taxed and is transferred to the state. Int. Note in case of queries: The richest 1% are those who earn more than the remaining 99% of the population. Rich persons mean that 1% of the population is richer and 90% of the population is poorer. High-income persons mean that only 10% earn more, but 50% earn less. Low-income persons are in the bottom half, i.e. 50% of the population earns more. INT: Please pay attention to the consistency of the answers. For example, if someone is in favor of a higher tax

rate for low-income persons than for rich persons, please ask again and explain the tax rate on the basis of the initial example if necessary.

What percentage should ... in taxes?

the richest 1%	<input type="text"/>
rich persons (i.e. only 1% of the population earn more and 90% earn less)	<input type="text"/>

Q381 In the following we will present a couple of questions, which we kindly ask you to read and answer by yourself. To get familiar with the task, please have a look at the computer screen. We present three case studies. Your task is it to assess whether the indicated gross earnings are realistic, or whether they are unrealistically high or unrealistically low. In this task, we are interested in your assessment of the indicated person's actual gross earnings and not how much you think that person should earn. Please always assume that the persons are about 40 years old, have several years of work experience, assume normal tasks in their occupations and have no responsibilities over other coworkers. Some characteristics vary across persons. For instance, they have different occupations or work times (full-time or part-time). Except for these differences, the persons are in every respect identical. We are interested in your personal assessment. Thus, please follow your own opinion!

Q512 Now we are talking about the Consent to merge your survey data with selected social data of the Federal Employment Agency The study LEBEN IN GERMANY aims to reflect stability and change in as many areas of life as possible. In order to achieve this, it is increasingly important to learn more about people's working lives and to use this knowledge for statistical analyses. We therefore ask for your consent to be able to use your social data on your person which are available at the Institute for Labour Market and Occupational Research (IAB). These social data include, for example, B. data on periods of employment and unemployment.

Q513 The data protection legislation requires your written consent for merging social data with your survey data. We therefore ask for your consent to use social data about you that is available at the Institute for Labour Market and Occupational Research (IAB). Your consent to the data linking is of course voluntary and can be revoked at any time. All data protection regulations are complied with, i.e. Your anonymity remains perfectly respected. After the combination of the survey data with the above-mentioned social data at the IAB, your name and address will be deleted. For more information, please refer to the form “Consent to the merging of survey data for the study”LIFE IN GERMANY” with social data provided by the Institute for Labour Market and Occupational Research (IAB)” that your interviewer will present to you.

[INT] Please now submit the form “Consent to merging survey data for the Study”LIFE IN GERMANY” with social data provided by the Institute for Labour Market and Occupational Research (IAB)”

In the case of an electronic declaration, leave a form with the interviewee. In exceptional cases: If your declaration is on paper, please personalise a form for the signature (which you send back to Kantar signed by the interviewee) and leave a copy with the interviewee.

Q514

INT: It is very important that you provide the interviewee with a consent form, otherwise we will not be able to take the interviewee into account for consent.

I confirm that I have handed over to the survey person the form “Consent to merging survey data for the study”LEBEN IN DEUTSCHLAND” with social data (according to Section 67b of the Social Code X) available at the Institute for Labour Market and Occupational Research (IAB).”

Q516 Now it’s about the Consent to merge your survey data with account data from the Pension insurance institutions In order to be able to describe the social change in relation to age in Germany, science needs information that is as accurate as possible. Therefore, with your consent, we would also like to use the data of the statutory pension insurance. This is information about your insurance history with the German Pension Insurance, e.g. information on the amount of your pension entitlement as of today.

Q517 The data protection legislation requires your written consent for merging social data with your survey data. Consent is of course voluntary and can be revoked at any time. We therefore ask for your consent to allow us to use register data about you, which is available at the German pension insurance. Your consent to the data merge is of course voluntary. It can also be revoked at any time. All data protection regulations are complied with, i.e. Your anonymity remains perfectly respected. For more information, please refer to the form “Consent to the merging of survey data of the study”LIFE IN GERMANY” with the account data of pension insurance institutions”, that your interviewer will present you with.

[INT]: Please now submit the form “Consent to merging survey data of the Study”LIFE IN GERMANY” with the account data of pension insurance institutions”. In the case of an electronic explanation, leave a form with the respondent. In exceptional cases: In case of declaration on paper, please personalise a form for the signature (which you send back to Kantar signed by the interviewee) and leave a copy with the interviewee.

Q518 INT: It is very important that you provide the interviewee with a consent form, otherwise we will not be able take the interviewee further into account for consent.

I agree that Kantar will transfer my first and last name, as well as my address and date of birth to the Institute for Labour Market and Occupational Research (IAB) in Nuremberg. The IAB combines my Survey data of the study LIFE IN GERMANY with the social data provided by the Federal Employment Agency about me, and saves the merged record without names and addresses. The resulting data set is used for research by researchers in Germany and worldwide under strict privacy policies. I was informed that when the survey data was merged with the social data as well as during the processing of this data, data protection regulations were adhered to. I have also been informed that I will always be able to withdraw my consent Just send an informal message (e-mail: datenschutz@kantar.com; Phone: +49 (89) 5600 1176).
