## Reading Aid

This representation of the questionnaire contains the same informations as the portal `paneldata.org`.

Here, in addition to the *question number*, *question text*, *interviewer instructions*, and *answer options*, you find printed in green the *file name* and the *variable name* with the *variable label*, which contains information from the question. If you see rows of green lines below the answer option, the questionnaire defines several variables or informations are stored in more than one data set.

The *routing by filters* is depicted in blue.

Each variable is preceded by an identifier, which usually contains the question number and which is used when the variable is used in filters in subsequent questions. Such filters are usually placed as input filters (gatekeepers) at the beginning of a question. An identifier that is referred to in the input filter of a subsequent question is marked yellow as an example.

This reading aid does not cover a few exceptional cases: If the filter (as gatekeeper) only affects one of several variables for a question, the filter is printed in blue behind the variable. There you will also find a "go to" command in the form 2 @ Q73. Here, the questionnaire skips to question 73 if answer 2 was given.

Phrases that are not already translated in English are displayed in German and preceded by [de].

**110** In many cases, scientific researchers can only make accurate statements about people's current working and living conditions and how they change over time if they have information from both employees and employers. For this reason, we asked participants in the 2012 LIVING IN GERMANY survey to provide us with the names and addresses of the employers they worked for in 2011. We are now launching the second round of the survey EMPLOYERS AND OCCUPATIONAL WORKING ENVIRONMENTS IN GERMANY and we sincerely ask for your support. Based on your consent to participate, infas will ask the local operating units and combine this information with data that can be obtained through publicly available business registers. We are not interested in the situation of individual people, but in the overall situation of different occupational groups. Of course, we will ensure that you remain completely anonymous and that all data protection regulations are strictly observed. No information will be passed on that would allow you to be identified as an individual. This confidentiality also applies, of course, to the information provided by your employer.

**110a** Please state the name and adress of the local operating unit or office

*We are referring here to the local operating unit or office of the company where you are currently working or where you last worked. Local operating units include manufacturing plants, workshops, branch offices, or subsidiaries. We are not referring to the company or agency as a whole. Please answer based on your current or most recent main job. Please give the exact name of the local operating unit – in other words, not just “bakery” or “hair salon” but the exact name of the bakery or hair salon (for example, “Acme Bakery”); not “Berlin Police” or “Munich Hospital” but the name of the police station or hospital (for example, “Police Directorate 3, Section 32” or “Großhadern Clinic”).*
